Enjoyed.

Did we discuss this or am I dreaming - <http://www.nmai.si.edu/education/codetalkers/html/chapter4.html>

Hoping to use the same concept with the encryption of the Epirb or PLB within the device, or not. i

Subject: [Non-DoD Source]

Hi lucky you just caught me.

Attached is a picture.

I really want all to be fluid with clarity and necessary mystery for .. you rock me and ... I want all to be the very best no matter what so do not be alarmed with my seemingly mysterious being. I am very complex in a few ways. Please respect my need for some relative privacy now because I am suing a major media organization and the case involves corrupt forces. I would prefer talk of me kept to minimum because the girly Google thing to which I write about in detail at Signsofourtimes.info is something in need of proper perspective. I have a site dedicated to my struggle/case. In brief, I was doxxed (look it up) by some corrupt forces because of my politics and controversial writings. I am happy to explain in the detail it deserves... for there is no problem in my life outside of these nefarious forces who attempted to delegitimize my writings. The good news is it is going to be very lucrative. It just is something that I think the Gods brought to me for a reason given the American zeitgeist and how it plays out for my websites. All else is amazing. So no worry. Vague enough for you? lol. Tell her I was only arrested in my life 1995.

Enjoy the picture.

Liking AMTI

will review, research, and think over for you.

do you have any info on how long it takes a body to be considered too cool to be alive?

versus how long it takes for an average person to hold his/her breath without dying.

did many breathing exercises today in pool where I swim as long as I can without a breath.

I think you can have a faster and more reliable device with monitoring oxygen/air intake then body temp....

perhaps could have a life saving dimension for a few cases as opposed to body gone cold.

heart rate monitor would give this advantage as well... yet interested in the added complexities to monitoring hearts tech-wise.

heart monitors seems very doable for elderly yet limited for the other functions like tracking kids.

I just came up with an idea...

like you cannot control your heart rate outside of exercise

yet

yo can control your breath in and out...

meaning you can communicate with your breath (not bad breath lol)

in a code way where you cannot communicate with heart rate because heart rates are either normal or accelerated not different rhythm ...

so if someone is abducted ...

they could communicate a pattern in breath like Morse Code

along with the basic tracker of breath.

hmmm.

you

inspire

muse like qualities sweet thing

look up etymology up "inspire".

gotta do some errands

talk later if you so desire.

James

A. P. C. <allebpmac@gmail.com>

Thu, Jul 5, 2018 at 5:17 PM

To: James Larenaissance <jameslarenaissance@gmail.com>

Hi James,

See the article I attached in last email about medical death and body temp.

So the heart rate things been done. Remember, you are dead. This is about death.

I am not monitoring the living. Its about death.

Those who live alone. Like me. Like Michael with gobs of animals, kids, wives, etc.

Don't overthink this as I have.

Its simple. You are dead, now what?

This needs very simple applications already in existence. I need to pull them all in together as a recipe and create - now, as the clock keeps ticking.

I have actually put in an extension on my provisional. I have up to 5 years. I hope Machu Pichou (sp?) visit happens during that time as I need inspirations, yet you've certainly done that.

Yes, ring anytime after 8. I have to do some sort of workout beforehand.

Smiles,

Anna Page

Thu, Jul 5, 2018 at 10:01 PM

To: "A. P. C." <allebpmac@gmail.com>

reading the patent.

interesting...

especially as to how to charge the device.

- body heat who has done this? Seals - name?

- movement ...how... anyone do this ... (kinda like my idea of breath moving or triggering something)

best to use the movement with areas that move ... breath is constant.... I wonder if imbedding a chip in the legs of elderly would be enough charge.

there could be an advantage of installing this motion charged chips to encourage daily movements/exercise another selling point.

arms movements... yet gotta know how much motion needed. to charge for a day.

Like there are ideas of gyms that deploy the treadmills as means to charge the electric grid of a gym. For real.

- drawing power from radio emissions.... any example of someone /something doing this?

- yes since you are not geared to monitoring children this device is best for patches, jewelry, etc... easier to manufacture and distribute, and sell ... less costs to install and maintain.

area of the body where the heat is best to measure???

- 
- IDEA - toe rings possible... and since when people die their toes curl perhaps some kind of indicator..?? (One thing I know we could not use is your cute kitten paws as a logo for this idea because those flowers are the antithesis of death ...lol) ... I get this way sorry.
 - hair clip once again studies on area of best heat indicator - under arm etc... and need to be protected with showers, exercise, etc....
 - wifi... ???
 - smart glasses could be used to monitor eyes yet how many wear contacts? I will never wear those.
 - smart watches best especially in symbolic way because watches are symbolic of ones time like times up.
 - transmitters ...
 - do you want to know someone is dead in an hour or a day because there are simpler ways to know someone is dead in a day - like if they enter a bed, motion detectors in house, use of toilet, running of water, sensors in floor, etc....
 - Researching "piezoelectrical devices"....

need some more time on this.

my degree is in history, law, and journalism.

Need to zero in on the technical area for heat sensors.

monitor blood pressure??? seems more complex than a basic sensor yet possible over time but is not the Fitbit and others on this already.

James,

A bit more info

A company out of Cary, NC designs & builds the needed chip for the concept. They are: Connected Development. I had asked about IoT & M2M products and what they mean.

In searching that company, I am not able to access their website, however, the Google page showed other mechanical engineering sites others also searched for:

Porticos Inc.
Technosoft Innovations, Inc.
Anuva Innovations
Device Solutions, Inc.

Texas Instruments is used by Fitbit - (see attached doc).

And then there is this information:

M2M (man 2 machine)

Introduction

It is well known that a wireless sensor network (WSN) is a self-organization wireless network system constituted by several energy-limited micro sensors under the banner of the Internet of Things (IOT). Nowadays, WSNs are widely used as an effective medium to integrate the physical world and the information world of the IOT [1,2]. In [3], we propose a kind of new web-based method of seamless migration under the IOT, in which the WSN works as a context-aware device. In order to transmit context-aware information (identity, location, etc.) in time and without fault, a good WSN topology should be constructed to ensure efficient data transmission. Afterwards, the routing protocol and application layer could be designed.

Many algorithms have been used in topology control and routing design to balance the energy consumption and prolong the lifetime of WSNs [4–7], such as clustering [8–14], graph theory [15, 16], and intelligence computing [17]. At the same time, interdisciplinary achievements are made and then applied to WSNs. In this paper, we propose a new method of constructing a topology based on local-world weighted networks for WSNs of the IOT, which involves a topology evolving model for the WSN, using the theory of weighted complex networks which is widely studied in the field of statistical physics.

Nowadays, though many achievements in the field of complex networks are emerging, only the unweighted small-world theory is widely applied to constructing and optimizing WSN topology. Learning from interdisciplinary researches in recent years, a new approach to construct a WSN topology of the IOT will be presented by us. The definitions of edge weight and vertex strength take the sensor energy, transmission distance, and flow into consideration. The vertex strengths drive the growth of topology; meanwhile, the edge weights change correspondingly. Experimental data demonstrate that the WSN topology we obtain has the property of weighted networks of the IOT: the edge weight, vertex degree, and strength follow a power-law distribution. Our related IOT research work shows that weighted WSNs not only share the robustness and fault tolerance of weight-free networks, but also reduce the probability that successive node breakdowns occur; furthermore, they enhance the synchronization of WSNs.

2. Background

Most of the real networks of the IOT, independent of their age, function, and scope, converge to similar architectures [18]; therefore researchers have tried to build a unified model for complex networks in recent decades. In [19], Erdős and Rényi propose a random graph model based on classic graph theory and statistical physics; in [20], the small-world property of complex network is found by Watts and Strogatz (WS), who establish a small-world network model; in [21], Barabási and Albert (BA) build a model which reveals the scale-free characteristic of complex networks; in [22], a weighted network model is created by Barrat, Barthélemy and Vespignani (BBV); this model not only defines the strength of connections, but also takes the change of connection strength into consideration, which makes the model closer to a real network of the IOT.

Nowadays, the BBV model is widely used to analyze real complex networks such as the scientist collaboration network (SCN) and world-wide airport network (WAN) [23]. Similar to the SCN and the WAN, there are numerous nodes and community structures (clusters) in WSNs; important nodes (cluster heads) have more connections than common nodes. Much research on the “energy hole” shows that the data flow on each connection varies considerably in a WSN because of different distances to the sink node [12]. Thus it is not suitable to represent a connection as connected (“1”) or connectionless (“0”). Furthermore, global information is limited in WSNs of the IOT: sensors exchange information in their “local world”. Overall, weighted networks and local-world theory are appropriate to model WSNs of the IOT.

In [24], Ruela et al. use a genetic algorithm to construct a WSN topology which shows a high clustering coefficient and a short average shortest path; therefore, the energy consumption and delay of the WSN is reduced. But complex network theory plays the role of a network performance analysis tool, rather than an evolving method in this study. In [25], Chen et al. propose a network topology evolving mechanism between clusters based on a random walk. An energy-driven preferential attachment is available. The topology generated by this method has the characteristics of a scale-free network, and the fault tolerance is better. But the topology of the WSN is unweighted, and is formed by cluster heads rather than all of the sensors; furthermore, DEEG [26] fails to solve the energy-hole problem.

Ok, stars ... you ... me ... Como Beach later tonight? Hmmmmmmm

hi

yes sorry

just getting anxious about Europe... money spent, going to spend, pressure to make something happen, and coming week, suing, and trying to get us into a proper friend zone.

Your energy was very hyper yesterday and seemed everything was irritating you.

I am really attracted to you but I have to pursue what I planned and it is a giant of a task that will have me living abroad.

I cannot stay here. I got voices again when I was swimming that "I am the enemy".

YES. This happens regularly. I am psychic.

The Jews are trying to get me thrown in jail.

I know it.

It is so frustrating not being able to share my websites.

The more I learn the more I become Harden with the need for a sanctuary and people.

America is poised to keep attacking me.

I would be a nightmare of a partner for you.

Every day I am battling demons.

Unfortunartely the timing is not right for me to be in anything here in America.
I am struggling to have something to do in tune with my soul outside of exercise.
I plan to develop a screenplay to produce in Europe with Catholic/Christian themes as well as sharing my sites in book forms.
All this is impossible in Jewish strangle hold America.

I will be swimming in Wilton at 4pm

... and your time discussing the weekend plans.

I forgot to add thoughts to our conversation that I'd like to stay there, overnight (on my bed) Sat night with the cats, so to be with the cats on Sunday am, and get them acclimated before I go to work on Monday am. That would allow for a leisurely Sunday with them, calm, quiet, reading and sipping tea - my routine.
Does that work for you?

So, with this 3rd "identity hack" into my bank account, I am overly annoyed and angry. Stupid me to believe it wouldn't happen again. And I was going to that shoe store to p-up a pair of shoes on Sat as my back is killing me!
Well, it can wait and I'll purchase them once all is back on line and I move my funds to the credit union at work.

Let me know you thoughts about above and have a nice evening of rest ~

Anna Page

Hi Anna
hope all is working out.
I am In Vilnius.
I finally feel at home.
Swimming in lakes and feel free of chaos that severely damaged me.
Slowly becoming happier.
No luck with Great Granny's birth certificate yet.
Ugh.
Need to know what town she was from.
You would think my father would know which town...
she only lived 80 years.
lol.
JEEZUS!

Hi James,

I got notice today of a new job with the Corps in WV. I will know exacts tmrw, but I need to give you 30 days notice. Actually works great for you as the place will be available to you when you return on the 16th. Sat is the 15th and I'd probably move then.

Stand by, facts to come.

Travel safely.

Hi Anna
I am still in Riga
like being with my friend and familiar territory.
was thinking about advertising the apartment so I can come and go within a week.
want to buy s ticket now.
curious as to your plans...
no press...
you are welcome to stay another two months til Dec...
I will most likely have to return around then.
Also
did anyone come by the apartment looking for me?

[Quoted text hidden]

A. P. C. <allebpmac@gmail.com>
To: James Lawrence <jameslarenaissance@gmail.com>

Wed, Sep 5, 2018 at 6:06 AM

Hey James. I am on the train. Its early, so excuse any typos.
I have re read your email a couple of times and I am confused - you are coming back in a week or not til Dec? What happened to your court date that would have you back on 16 Sept.?
My plans to move have not changed, but as I wrote your Mother, I have no orders to date, so I am in a holding pattern. I can see this might drag on thru Oct to the latest, but not 100 % so I appreciate "no press ..". That noted I am so down about everything including this holding pattern. Sucks. You are lucky to have family. I do not. And jealous to a fault that you are where you are - this country is so f'ed up!! Can't wait to leave it forever!
I will probably keep paying rent to you and will let you know whats up the minute I know something. So when will you be back? I will place the ad as offered, just been slammed at work. I think you are asking too much considering upstairs just got rented to "Holly" an older woman. Anyway, no one has come by while I am there. Who are you expecting?
Peace,
Anna

To: James Lawrence <jameslarenaissance@gmail.com>

And while you are in town -

I don't want you to upset my cats by dropping by for any reason. They are my family and I am their Stewart and it's not a joke. All of your things (except the couch which is covered and the king mattress) are packed away in the basement or at your parents, so you need no entry into the unit ibam renting. If you have someone interested, I will show it and I will need notice to tidy up. I need no additional stress in my life while you are in town. Please respect my privacy and the terms of the lease, that is all I ask. I don't want any problems. Thanks for respecting this email. No bad vibe intended, I just want peace and quiet in my life while in CT. Sure you do too. All units rented so I am sure your parents want no problems either. Thanks and safe travels back.

Nope. I don't need to meet a past GF of yours.
But I will note: Michael was the last partner I had before you and he died 19 Nov 2016. Then I volunteered and left to support Hurricane Mathews the next month (Dec) after a full physical and a slue of shots for the mission. I had nothing then but if I did, I would not have been allowed to deploy. Then sex with you.
I had a UTI and a bladder I. Now this. But you deny all you want, you were the only other I have been with. Stupid me to be without protection. My ignorance.
My orders came thru on Friday. I am getting a check to your Mother today for the end of this month. Then I will move out with this place cleaned on Sunday Sept 30.
Oh, a police men did come by asking if you lived here. I said no and that I hadn't seen you.
Ok. Safe travels back

And the total body pain I am having, and have experienced for 3 weeks has been debilitating. Headaches, join and muscle pain, nausea, fatigue like never before, sweating, chills. I thought it was Lymes disease, but was ruled out.

[Quoted text hidden]

James Larenaissance <jameslarenaissance@gmail.com>
To: "A. P. C." <allebpmac@gmail.com>

Sat, Sep 15, 2018 at 6:20 PM

this is not a sex disease

Hepatitis C virus (HCV) is a small (55–65 nm in size), enveloped, positive-sense single-stranded RNA virus of the family *Flaviviridae*. Hepatitis C virus is the cause of hepatitis C and some cancers such as liver cancer (hepatocellular carcinoma, abbreviated HCC) and lymphomas in humans.

Hepatitis C is an infectious disease caused by the hepatitis C virus (HCV) that primarily affects the liver.^[2] During the initial infection people often have mild or no symptoms.^[1] Occasionally a fever, dark urine, abdominal pain, and yellow tinged skin occurs.^[1] The virus persists in the liver in about 75% to 85% of those initially infected.^[1] Early on chronic infection typically has no symptoms.^[1] Over many years however, it often leads to liver disease and occasionally cirrhosis.^[1] In some cases, those with cirrhosis will develop complications such as liver failure, liver cancer, or dilated blood vessels in the esophagus and stomach.^[2]

I HAVE HAD NONE OF THIS!!!! NONE. EVER.

Hepatitis C virus is predominantly a blood-borne virus, with very low risk of sexual or vertical transmission.^[40] Because of this mode of spread the key groups at risk are injecting drug users (IDUs), recipients of blood products and sometimes patients on haemodialysis. Common setting for transmission of HCV is also intra-hospital (nosocomial) transmission, when practices of hygiene and sterilization are not correctly followed in the clinic.^[41] A number of cultural or ritual practices have been proposed as a potential historical mode of spread for hepatitis C virus, including circumcision, genital mutilation, ritual scarification, traditional tattooing and acupuncture.^[40] It has also been argued that given the extremely prolonged periods of persistence of HCV in humans, even very low and undetectable rates of mechanical transmission via biting insects may be sufficient to maintain endemic infection in the tropic, where people receive large number of insect bites.^[1]

YOU ARE CRAZY. WHAT PART OF I HAVE BEEN A A PILLAR OF HEALTH - NO YELLOW SKIN, NO FEVERS, NO STOMACH ACHES NOTHING!!!
IF I NEVER MET YOU I WOULD NEVER THINK I HAD HEP -C. THE ONLY WAY I WOULD HAVE IT IS IF YOU GAVE IT TO ME.
I NEVER HAVE HAD THESE SYMPTOMS - NEVER.

Clearly you got tested on your own accord in 2017 for a reason. And I recall you stated it was because of the woman in CA. I got tested a week ago because of the pain and headaches, etc noted. I am normally in perfect health. So go blow

AMAZING HOW YOU INSTINCTUALLY BLAME ME WITHOUT KNOWING ANYTHING ABOUT MY HEALTH.
HOW CAN I BE A CARRIER IF I HAVE NEVER HAD ANY SYMPTOMS?

AND I NEVER SHARED BLOOD WITH YOU.
YOU WOULD NOT HAVE SYMPTOMS FROM ME AFTER A MONTH.
MEANING - I WOULD HAVE HAD TO HAVE SYMPTOMS IN MY PAST AND THE ONLY THING THAT "MESSED WITH
MY LIFE IN THE PAST 3 YEARS IN AMERICAN WOMEN.
ANOTHER MIND FUCK.
QUIT PROJECTING YOUR SHIT ON ME.

Sat, Sep 15, 2018 at 6:32 PM

NOT BLAMING????
YOU JUST WROTE "AND I KNOW IT IS YOU"!!!!
GET SOME HELP.
THIS IS NOT NOT NOT HOW YOU TREAT SOMEONE

Fine. Don't contact me again or come by the apartment while I am here. I leave on Sept 30. I never want to see you
again. Understand? Clear???

CRYSTAL
I DO CARE ABOUT YOUR HEALTH.
I DO NOT APPRECIATE YOUR JIBES AT ME ALL DAY.
ACCUSATIONS.
UNFOUNDED.
COMPLETELY UNCALLED FOR.
THIS COULD HVE WAITED.
AND YOU COULD HAVE INFORMED ME OF THE FUCKING "POLICEMAN" WHEN IT HAPPENED.
I DO NOT KNOW WHAT TO BELIEVE WITH YOU.

Anna

Advice - do not cause my beloved 77 year old parents any stress whatsoever.

Take this advice.

so ...

can we halt the relative craziness now and help me rent the place.

I was planning to be back in Europe this week. I have to be back here Nov. 19 and want another 7 week stretch there.

so how about letting me show the unit to 3-4 people in a 2-3 hour time frame Sunday.

I have 7 people waiting for Oct 1 now. Don't freak on the cleaning... just orderly.

you and the kitties can take a cafe somewhere and I can show.?

My parents are afraid of you. No unnecessary anxiety please.

WHAT PART OF CRYSTAL CLEAR ARE YOU MISSING ?

THIS WILL BE THE 3RD TIME I HAVE WRITTEN YOU TO NOT CONTACT ME. YOU HAVE THREATEND ME, NOW CONTACTED ME AGAIN. STRIKE 3. THIS IS HARASSMENT AND I AM DONE.

DO NOT CONTACT ME AGAIN FOR ANY ANY ANY REASON WHATSOEVER! I AM TERRIFIED OF you AND HAVE ASKED, TOLD AND BEGGED YOUR PARENTS TO KEEP YOU UNDER CONTROL. WHEN I LEAVE ON THE NIGHT OF THE 30TH, YOUR PARENTS, WHO OWN THIS HOUSE, CAN DO AS THEY WILL. LEAVE ME ALONE!!!!!!!
